Job Details

Position: Dental Ceramist

Wage:$31.28 ~ $40.00 hourly (to be negotiated) / 30 to 40 hours per Week

Position Summary;
We are seeking a Dental Ceramist with at least 3 years of hands-on experience in dental laboratory technology, specializing in the fabrication and finalization of aesthetic ceramic restorations. The Dental Ceramist is responsible for transforming ceramic frameworks and milled restorations into natural-looking dental prostheses through precise ceramic layering, contouring, staining, glazing, finishing, and surface characterization.

Job duties:
1. Review dental prescriptions, impressions, digital scans, and case specifications to determine the appropriate design and fabrication requirements for each restoration.
2. Design and fabricate dental restorations, including crowns, bridges, veneers, inlays, onlays, and implant-supported restorations, according to prescribed functional and esthetic requirements.
3. Analyze case information and apply appropriate morphology, contour, occlusion, and anatomical characteristics to achieve accurate and functional restorations.
4. Apply and layer ceramic or porcelain materials to achieve the required shade, translucency, contour, and natural appearance of dental restorations.
5. Perform staining, glazing, finishing, and polishing procedures to achieve the required surface texture, esthetics, and final quality of ceramic restorations.
6. Operate dental laboratory equipment and digital systems, including CAD/CAM technology, milling equipment, and ceramic furnaces, as required for the fabrication and finishing of restorations.
7. Inspect completed restorations for accuracy, fit, margins, occlusion, shade, and overall quality, and make necessary adjustments or refinements based on case specifications and clinical requirements.
8. Communicate and collaborate with dentists, dental technicians, and laboratory staff regarding case specifications, restoration requirements, and necessary technical adjustments.

9. Maintain and properly use laboratory equipment, materials, and supplies, following established safety and quality-control procedures and ensuring required materials are available for ongoing production.

Terms of employment: Permanent, Full time

Work Location: #206-2250 Boundary RD. Burnaby, BC V5M 3Z3

Requirements
• College-level diploma or certificate, with completion of a college program in dental technology or equivalent work experience
• At least 3 years of practical work experience in dental laboratory technology, with hands-on experience in ceramic restoration and finishing.

Language : English
