Job Description

Responsibilities

- Install, troubleshoot, and repair HVAC systems and equipment
- Measure and lay out reference points for the installation of HVAC and refrigeration equipment
- Diagnose mechanical and electrical malfunctions in HVAC and refrigeration systems and recommend appropriate, cost-effective repairs
- Start up, test, and calibrate systems for proper operation and leak detection using appropriate testing devices
- Assemble and install system components, including motors, compressors, condensers, evaporators, valves, gauges, and controls, using hand and power tools
- Measure, cut, and connect piping and ductwork, applying appropriate fastening, soldering, or brazing techniques
- Recharge refrigerant systems and calibrate controls and regulators, in compliance with applicable environmental and safety regulations
- Perform scheduled preventive maintenance and safety inspections on client equipment
- Read and interpret blueprints, wiring diagrams, equipment manuals, and manufacturer specifications
- Maintain accurate service records, and maintenance documentation for each job
- Communicate clearly and professionally with clients regarding diagnosis, recommended repairs, and system operation
- Prepare work estimates and quotations for clients when required
- Follow all applicable safety standards, building codes, and TSSA/refrigerant handling regulations

Qualifications

- Completion of secondary school and training courses or a vocational program is usually required.
- HVAC/R certification or relevant trade qualification is required
- Previous HVAC service and installation experience is preferred
- Strong troubleshooting and problem-solving skills
- Ability to work independently and manage multiple service calls
- Good communication and customer-service skills

- Ability to lift equipment and work in various environments, including attics, crawlspaces, rooftops, and mechanical rooms

What We Offer

- Ongoing training and professional development
- Company vehicle and tools
- Friendly and supportive work environment
