Job Description

Main duties and responsibilities are as follows but not limited to:

• Read blueprints, diagrams and schematic drawings to determine work procedures

• Operate hoisting and lifting devices such as cranes, jacks and tractors to position machinery and parts during the installation, set-up and repair of machinery

• Inspect and examine CNC machinery and equipment to detect and investigate irregularities and malfunctions

• Adjust CNC machinery and repair or replace defective parts

• Operate CNC machine tools such as lathes and grinders to fabricate parts required during overhaul, maintenance or set-up of machinery

• Clean, lubricate and perform other routine maintenance work on machinery

• Construct foundations for machinery or direct other workers to construct foundations
